طريق المطار بجوار كوبرى الفروسيه امام محطة وقود ام القرى - طرابلس Airport Road, next to Al Furosia Bridge, in front of Umm Al-Qura gas station - Tripoli

HOT LINE: **0926644444**

R20 Inch Wheel Hub

- Each turn is my round
- Wide spokes add to S06's strong visual impact
 Bigger wheel hubs make the car look more sporty

Electronically-Adjustable Side-View Mirrors

- Electronically-Adjustable Side-View Mirrors
 With electric adjustment and heating, you don't need to worry about rainy and snowy days Different road conditions can be seen easily and clearly

LED Interactive Lights

- 100 matrix light beads boost brightness and clarity
 Be the first to enjoy tech-enhanced design

LED Connected Tail Lights

- Only when you stop following the crowd will you become the trend Connected light strip at the end, lighting up aspirations of people coming from behind Smart design of hidden exhausts, breaking norms and attracting fanfare in a low-key manner

03

Intelligent Elecrtic Adjustment for Diver Seat

- SPA-level care ensuring driving experience and enjoyment
 6-Way electric adjustment for driver seat & 4-Way manual adjustment for passenger seat
 Backrest adjustment and ventilation, greatly boosting level of comfort

15.6 Inch Big Console Screen

- A big screen making high-definition world possible
 15.6 Inch super big screen with ultra-high definition comparable to a movie theater, offering the best movie-watching experience

 • Qualcomm Snapdragon 8155 Chip

 • Ultra-strong computing power of dies, empowering the car and optimizing
- infotainment experience

Dual-Zone Air Conditioner

- Two temperature zones ensuring comfort for everyone
 The driver's and front passenger's seats can independently control temperature changes, automatically adjusting to the most ideal temperature

Multi-Language Intelligent Voice Control

- Able to understand and respond quickly Whole-scenario voice control
 No need for physical gestures. All electrical setups can be controlled with voice
 Supporting multiple languages, turning interaction into communication

Dual Options for CarPlay+Android Auto

• Phones become palm infotainment system, supporting both iOS and Android systems

Magic Seats

- Sitting up or lying back? No problem at all
 Second seats can be folded down flat, turning your car into a big room
 Feel free to stretch out your body and mind while sitting or lying down

Automatic Car Lock and Window Lifting

- Automatic walk-away lock and window lifting with thoughtful anti-trap design
- Saying goodbye to cumbersome car-locking experience and potential risks

Privacy Glass

- Closed off from the outsiders' gaze, an oasis of inner world is left to yourself
- One-way privacy glass, creating a space for privacy

32 Storage Compartments

- Easy storage and easy access
- 32 storage compartments, fitted with multiple convenient devices
 Big flexible space, able to meet different demands for storing things

SONY 8 Speakers Fitted with exceptional SONY 8 speaker Soothing low-pitched sound, clear human voice Immersive audio experience, turning the car into a concert hall

*The S06DM is configured up to Sony 9 speakers

10

50W Wireless Fast Charging

- 50W wireless fast charging, setting no limit to battery life of mobile phones
 It can also be a convenient surface where things can be put

Remote Engine Start

With remote control key, you can remotely start your car. No need to wait any more

Key-less Start

You can start the car without taking the key out, saving you the trouble and time

Elegant Electric Gear Lever

By gently pulling the lever, you can switch gear The gear lever is not only better-looking, but more in line with ergonomics.Driving becomes more handy and elegant

ICA (Integrated Cruise Assist)

In the ICA speed range (>60 km/h), the vehicle maintains its position near the center of the lane, reducing the driver's workload. It assists with acceleration and deceleration in monotonous driving conditions or traffic congestion, ensuring a safe and comfortable driving experience

HMA (High Beam Assist)

This system automatically switches the headlamps from high beam to low beam when it detects a vehicle ahead. Frequent use of the high beams helps to detect pedestrians earlier, making driving safer

LKA (Lane Keeping Assist)

This is an intelligent assistance system that helps drivers stay in their lanes and reduces the risk of the vehicle drifting out of its lane, thus improving driving safety

LCW (Lane Change Warning)

LCW uses advanced sensors to monitor vehicles on the side of the road. As soon as a vehicle enters the dangerous lane change area, it calculates the relative position and speed and warns you in time, helping you to know the blind zone situation in advance for safe driving

360° Panoramic Camera

- 360° see-through chassis, enabling you to find hidden danger right away
- With a wide eye view, you can take in things around you at a glance, so as to minimize risks of blind zones
